APPENDIX II

LIST OF RADIO TRANSMITTERS AND RADIO TRANSMITTER-RECEIVERS IN NEED OF IMPORT LICENSE

(To the Information and Communications Ministry's Circular No. 14/2011/TT-BTTTT of June 7, 2011)

					Products
Code					Description
Chapter	Heading	Sub-heading			Description
Chapter 85					1. Radio transmitters and radio transmitter-receivers of a frequency band of between 9 kHz and 400 GHz and a capacity of 60 mW or more
					1.1. Radio transmitters and radio transmitter-receivers for use in land fixed or mobile radio communication services
	8517	61	00	00	- Base-station apparatuses (GSM. CDMA, W-CDMA FDD. DECT. PHS. wide-range systems)
	8517	12	00	00	- Cell phones
	8517	12	00	00	- MF, HF, VHF. UHF radio telephone

					apparatuses for use in land fixed or mobile radiocommunication services
	8517	62	61	00	- Other
	8517	62	69	—	- Other
	8517	62	90	—	- Other
	8517	69	—	-	- Other
					- Point-to-point, point-to-multiple point radio transmitter-receivers and those using spread spectrum-regulating techniques (except base-station apparatuses). Wimax radio transmitter-receivers:
	8517	62	21	00	+ Router, bridge, modem;
	8517	62	51	00	+ Wireless internal network apparatuses;
	8517	69	90	00	+ Scanners, laptops and computers installed on means of transport
					1.2. Radio transmitters and radio transmitter-receivers exclusively used for public television broadcasting
	8525	50	00	00	- Transmitters
	8525	60	00	00	- Transmitters fitted with receivers
					1.3. Radio transmitters and radio transmitter-receivers exclusively used for public radio broadcasting
	8525	50	00	00	Transmitters
	8525	60	00	00	-Transmitters fitted with receivers
	8517	69	90	00	1.4. Radio transmitters and radio transmitter-receivers exclusively used for standard transmission (frequency, time)
	8526	10	90	00	1.5. Radio transmitters and radio transmitter-receivers exclusively used for location and telemetry (except offshore oil and gas apparatuses)
					1.6. Radio transmitters and radio transmitter-receivers exclusively used for satellite communication (except maritime and aeronautical mobile apparatuses)
	8517	18	00	00	- User end-terminal apparatuses
	8517	69	90	00	- Radio-wave amplifiers in satellite stations
	8517	61	00	00	- Satellite transmitting-receiving stations
					1.7. Radio transmitters and radio transmitter-receivers for exclusive use in maritime mobile operations (including aid and satellite apparatuses)
	8526	91	10	00	- Radio buoys indicating maritime emergency locations

	8526	10	10	00	- Maritime radars, search and rescue radar response sets
	8517	12	20	00	- Maritime radio transmitter-receivers. MF, FIT, UHF, VHF radio telephone apparatuses for use in maritime mobile services
	8517	18	00	00	- Satellite end-terminal apparatuses for use in maritime services
	8526	10			1.8. Radio transmitters and radio transmitter-receivers for exclusive use in aeronautical mobile services (including aid and satellite apparatuses)
	8517	12	20	00	- MF. HF. UHF, VHF radio telephone apparatuses for use in aeronautical mobile services
					- Navigation aid and landing apparatuses
	8526	91	10	00	+ Of a kind for use on board civil aircraft
	8526	91	00	00	+ Other
	8517	62	90	00	- Data transmission apparatuses
	8526	10	90	00	- Other radar apparatuses (detection and search for air defense)
	8526	92	00	00	- Remote control transmitting-receiving instruments for unmanned aerial vehicles (remotely piloted aircraft) and aircraft models. etc.
Chapter 85					2. Radio navigation aid apparatuses (radar apparatuses, radio navigation aid apparatuses and radio remote control apparatuses
	8526	10			2.1. Radar apparatuses
	8526	10	10	00	- Radars of a kind for use on land or installed on board civil aircraft or only on board seagoing vessels
	8526	10	90	00	- Other
	8526	91			2.2. Radio navigation apparatuses
	8526	91	10	00	- Radio navigation apparatuses, of a kind for use on board civil aircraft or only on board seagoing vessels
	8526	91	90	00	- Other
	8526	92	00	00	2.3. Radio remote-control warning apparatuses
	8526	10	90	00	2.4. Radio identification apparatuses
	8517	69	90	00	3. Microwave apparatuses
